Knitwear from Ministrikk

Original title: Ministrikk
Publisher: Gyldendal Forlag 2019
Non Fiction / Hobby/Hand craft

Over several years, Ministrikk created an entire universe of beautiful, simple children's garments on ministrikk.no. Familiar and well-loved patterns such as the Dance Dress, the Pocket Playsuit and the Margot Trousers have been knitted and shared on social media across the world. These Ministrikk classics have now finally been gathered into a single publication that features 25 knitting patterns for children aged 0 to 10 years, as well as the Baby Boho Blanket and My Size Jacket for adults.

The book is also an homage to Ministrikk founder Charlott Pettersen, who sadly passed away far too soon. She and her partner Linda Hansen worked tirelessly to create knitted designs with a Nordic look and timeless cuts. Garments for children that can be used, handed down, and – with a little love and care – last for generations.
