Marte Helgetun

Marte Helgetun shares her patterns via her own company Design by Marte Helgetun. She has worked as a web designer, and now she runs the knitting blog and net shop www.martehelgetun.no.

Writer and designer Marte Helgetun has spent her whole life experimenting with knitting needles and wool, and in this charming and practical book on knitting she presents a total of 50 patterns for sweaters, jackets, trousers, dresses, skirts, hats and scarves in sizes 0-6 years. All the patterns are presented in a simple manner, shunning abbreviations and difficult technical terms.

Knit for Children is thoroughly illustrated with pictures of kids in soft garments and ought to belong in any knitter's collection.
