Pretty Special. Sew clothes for your entire troop

Original title: Hailt spesiell. Sy til flokken din
Publisher: Gyldendal Forlag 2021
Non Fiction / Hobby/Hand craft

Now you can sew something to all the members of your troop with patterns from Heilt Spesiell. In this book you get 40 different patterns for everything from cute baby clothes to dresses, pants, sweaters and tops. The sizes range from 50 to 170 cm for children and adolescents and from 3XS to 3XL for women and men. Well-crafted patterns and clearly detailed pictures make it easy for you to create the same garments yourself.

At the front of the book there is a detailed sewing section that gives a thorough introduction to what you need to get started, as well as useful tips for different sewing techniques. The book also contains a separate chapter where you learn how to use an embroidery machine to sew applications that decorate a garment or bag.

In this book there's something for everyone. Put up the sewing machine and be inspired!

Full-size pattern sheets are included.
