In TIME FOR KNITTING, author and designer Marte Helgetun presents simple knitted garments for every day use, that you will fall in love with.

Marte Helgetun has created a collection with simple and elegant favorites. With the help of her regular photographer Nathan W. Lediard, she presents over 30 patterns for sweaters, jackets, dresses, skirts, hats and scarves for women of all ages. The patterns are described in a simple and easy-to-understand way, completely without abbreviations and advanced technical language. The garments are designed so that there is as little assembling as possible, so the sewing machine can be left unused at the very back of the cabinet.
