Pretty Special Bullet Journal

Original title: Heilt spesiell. Bullet journal. Praktisk og inspirerende syjournal
Publisher: Gyldendal Norsk Forlag 2022
Non Fiction / Hobby/Hand craft

A must for anyone who is crazy about sewing!

Have you ever dreamed of having a journal where you can plan your next sewing projects? A journal where you can note sizes and measurements, make to-do lists and challenge yourself to monthly challenges, paste in fabrics and clippings for inspiration and photos of finished projects? Then this is the perfect book for you - a must for anyone who is crazy about sewing!

The book is packed with lovely illustrations that you can colour, pages for your own sketches and QR codes with practical tips from the author. As an added bonus, you get the pattern on a jumper (also in the form of a QR code) which is suitable for children, young people and adults. The sweater can be varied endlessly so that you adapt it to your taste and the materials you have at your disposal. The book also inspires reuse and to use what you already have in hand of fabrics and garments.

Kristin Thorsnes

Kristin Thorsnes is a trained hairdresser and makeup artist. Kristin has been creative all her life, and she has experienced most of the genres in the hobby branch.
